At the beginning, the aim was to train teachers in the context of an increasing influx of guest workers' children. Today, our research and training encompasses “Interculturality“ , “Intercultural Education“ and „German as a Foreign Language“.</p> <p>The Department of Intercultural Education (DIE) of the University Koblenz-Landau is located at Campus Landau in the most southern part of the Rhineland-Palatinate. We are part of a network of regional, national and international higher education institutions from various disciplines. One of our aims is to take part in education policy-making processes both at the national and international level through the provision of practical knowledge.</p> <p>Our staff members come from various backgrounds including education, social and cultural sciences, establishing an excellent basis from which to initiate relevant discussions on education policies in the context of globalization, cultural diversity and multilingualism.</p> <p>Our students are represented by a student body that is committed to support students in every aspect of their students' life and offers a wide range of extracurricular activities.</p> <p>This website is to provide you with in-depth information about our faculty, academics and research projects. Enjoy!</p>
