FAQs

• How to apply
  o All international students have to apply via uni–assist
    You can find further information and a document checklist here: https://www.uni-koblenz-landau.de/en/international-en/incomings/application/how-to-apply/how-to-apply?set_language=en

• What are the prerequisites?
  o A bachelor degree in Environmental Sciences (or an equivalent program with a focus on e.g. natural sciences and applied mathematics) with a minimum final grade of “good” (e.g., 2.5 on a 6.0 scale).
  o Students from partner universities have to be registered for a master program in environmental science, environmental engineering, natural science or related fields at their home university.
  o Sufficient English to follow the online courses.

• Do I need a visa?
  o No. Because you study from your home country you will not need a visa.

• Do I need an English language certificate?
  o No. You will need a certain level of English language skills to follow the contents of the course. However, the advantage of the online course is that you can access the online course contents as often as you want.

• What is the duration of the program?
  o The duration depends on the content of the study program of the home university and the number of courses that could be acknowledged at the University of Koblenz-Landau.

• Are there any tuition fees?
  o No. Because German universities are state-funded, no tuition fee is charged. However, because you will be enrolled at the University of Koblenz-Landau you will have to cover a semester fee and a student health insurance of € 600 per year.

• Do I need to write two master theses?
  o No. You will write your thesis just once. It will be rated from a supervisor of your home university and one of UKL.

• When do the courses start?
  o You can start either in winter or in summer. The application deadline is 15th September for the winter term and 15th March for the summer term.

• Do I have to travel to Germany?
  o No. As the courses are offered via online modules, you have the benefit to stay at your home university.
